EU citizen: no work permit or visa sponsorship required

PROFILE

Full-stack developer who builds and ships production web applications for real clients with React, TypeScript, Astro and Node.js. Experienced across the full cycle: requirements with the client, frontend, REST APIs, databases, deployment and maintenance. Background in law and mortgage operations, which shows in careful work with requirements and documentation. Looking for a full-stack or frontend role in Copenhagen (on-site, hybrid or remote).

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Frontend:** React, Astro, Progressive Web Apps (PWA), Responsive Web Design, Bootstrap, i18n
- **Backend:** Node.js, Express.js, REST APIs, Prisma ORM, Zod, Mongoose
- **Databases:** PostgreSQL, MongoDB
- **Testing & CI/CD:** Playwright (end-to-end testing), GitHub Actions, QA testing
- **Cloud & Tools:** Cloudflare Pages, Render, Netlify, Neon, Git, GitHub, Google Calendar API, Resend, SEO, Lighthouse

PROFESSIONAL EXPERIENCE

Full-Stack Developer · Self-employed · Remote · September 2025 – Present

- Design, build and maintain web applications for real clients, from requirements to deployment and ongoing support
- **NDL Capital Group** (ndlcapitalgroup.com): built a bilingual (ES/EN) platform for an international real estate advisory firm with Astro and TypeScript on the frontend and a Node.js/Express REST API with Prisma, Zod and PostgreSQL on the backend
- Developed a booking system on the Google Calendar API (OAuth2) with real-time slot availability and timezone handling
- Diagnosed and fixed a production email failure caused by IPv6 network limits on the host by migrating from SMTP to the Resend API, and configured DKIM/SPF via Cloudflare DNS
- **Ledel** (dermo-aesthetics clinic): built and delivered the clinic's website with Astro, TypeScript, Node.js and MongoDB, including SEO and the domain migration; the client has since replaced it
- Work with a PR-based Git workflow and Conventional Commits

Customer Service Advisor · CaixaBank (Store branch) · Madrid, Spain · April 2026 – August 2026

- Welcomed customers and resolved their account and card issues at the desk
- Advised customers on banking products: credit cards, insurance, loans and credit lines

QA Tester & Social Media Marketing · eFrontiers (Switzerland) · Remote, part-time · April 2024 – December 2024

- Tested features of a financial education app, identified bugs and reported them to the development team
- Created and managed social media content to grow the app's audience and engagement
- Worked fully remote with an international team, in English

Working Holiday · Australia · June 2023 – October 2025

- Chef and pizzaiolo in fast-paced restaurant kitchens (The Tin Shed, Port Douglas; Beach Hotel, Byron Bay; Dear Darnell's, Margaret River)
- Combined full-time work with the RollingCode Full-Stack program and remote work for eFrontiers

Mortgage Analyst · Grupo BC · Madrid, Spain · September 2020 – January 2023

- Reviewed and validated the documentation required for mortgage signings
- Followed up with clients before and after signing to keep each case on track
- Coordinated with lawyers and notaries and resolved issues arising at signing
- Prepared fund provisions and handled the related administrative processes

PROJECTS

LIFTR · Progressive Web App for strength training · liftr-7u9.pages.dev · github.com/jmanuel3/liftr

- Mobile-first, offline-ready PWA with smart weight progression, 1RM estimation and a weekly volume dashboard; vanilla JavaScript, local-first data
- End-to-end tests with Playwright across 4 screen sizes, running in CI with GitHub Actions; the tests caught a real layout bug at 320px
- Lighthouse: 100 Accessibility, 100 Best Practices, 100 SEO; security headers (CSP, HSTS) on Cloudflare Pages

FurbitAll · Full-stack MERN platform · furbitall.netlify.app · github.com/jmanuel3/FurbitAll-FrontEnd

- E-commerce store and sports court booking system built with React, Node.js, Express and MongoDB
- REST API, admin panel with full CRUD for products, courts and users, and authentication with role-based access

EDUCATION & CERTIFICATIONS

Full-Stack Web Development · RollingCode School · May 2024 – September 2025 · Certified Full-Stack Developer (MERN stack)

Master's degree in Legal Practice (Access to the Legal Profession) · Universidad Rey Juan Carlos, Madrid · September 2021 – May 2023

Bachelor's degree in Law · Universidad Rey Juan Carlos, Madrid · September 2017 – May 2020

LANGUAGES

Spanish: native · English: full professional proficiency (C1)

PERSONAL

Played American football for 10 years, from high school until I finished university, and won both the Spanish 1st Division league and cup with Osos Rivas. Sport taught me discipline, teamwork and performing under pressure. I still train strength regularly, which is what led me to build LIFTR.
